

IntegraScreen Privacy Policy

To prevent unauthorized access, maintain data accuracy and ensure the correct use of information, we have put in place appropriate physical, electronic and managerial procedures to safeguard and secure the information we collect from our visitors and clients.

<p>Confidentiality (Anonymity of User)</p>	<p>Our website does not automatically collect personally identifiable information from each visitor. Global OneCheck™ does not use any `cookies' or any such identifiers relating to our clients / customers. The system is designed to ensure total anonymity of the user while online. This is to comply with the Banking Secrecy and Data Privacy concerns of our clients. At the end of the session, no record of the searches conducted is available on the system. This has been independently verified and validated by <u>Network Security Solutions Ltd</u>, Asia's leading Information Security Company. NB: We do maintain offline logs of searches conducted by pay-per-use clients for billing purposes which are deleted on payment of the invoice.</p>
<p>Integrity and Security</p>	<p>Personal information is handled with the same level of care as all other information to ensure the integrity and security of your data. When you sign on to Global OneCheck™, your password and user ID are automatically encrypted using Secure Sockets Layer (SSL) software so that they cannot be understood by a third party. When users transmit sensitive information over the Internet, this information is encrypted and protected with Secure Sockets Layer (SSL) encryption technology. While on a secure page, the lock icon at the foot of your web browser is shown. You can also identify the secure connection by looking at the URL, which will begin with https: (instead of http:). The site supports 128 bit encryption.</p>
